

Your Trusted Partner in Government Projects

About Us

At Certis Solutions, we are reimagining technical resource provisions for the construction, engineering, emergency management, and environmental industries. As a small business with a nationwide reach, our expertise and resources help you bid, win, and execute on projects with confidence and precision.

Our Mission

To provide our clients the freedom to focus on securing new projects while we invest our resources in managing their project needs. With over 70 years of industry experience from our team, we are leaders in providing comprehensive project resources. From project bid through project completion, our ability to provide support and resource teams ensures compliance and readiness pre-award and post-execution.

Why Partner With Certis Solutions

Diverse Resources

Our nationwide teams of professionals ensures we have the correct support for any project.

Proven Track Record

Extensive experience in successfully supporting government projects at the local, state, and federal level.

Client-Centric Approach

We work closely with our clients to understand their needs and deliver customized solutions.

Innovation & Efficiency

We continuously adopt the latest technologies and best practices to enhance project outcomes.

Dedicated POC

Our industry-experienced PM's act as the sole point of contact throughout the project, ensuring optimal delivery.

What Our Customers Are Saying

"Where the folks at CERTIS have been exceptional is in their response times to unexpected and emergency incidents that required immediate attention. On 3 occasions they had deployed project teams inside 48 hours and prevented critical impacts on projects under significant time constraints. Great service and peace of mind." - Alaskan Native 8(a)

"Certis has been a pivotal partner in helping us efficiently ramp up for projects across the United States. We look forward to partnering with Certis on future projects." – Large Federal Contractor

"Certis has been an invaluable partner, exceeding expectations and adding value to our organization. Their team is knowledgeable, responsive, transparent, and has an excellent understanding of our business needs. One of the things we appreciate most about Certis is their ability to deploy resources quickly, which has helped us meet tight deadlines and respond to sudden changes in project scope."

- Large Environmental Contractor
